The Biotechnological Frontier of the future

EM'AGE

System

TIMELESS FUTURE

Em'age is the first system born from a branch of cosmetic science called **CosGenetics**.

CosGenetics is a Philip Martin's own system that contains the most innovative and important research created to give an effective and immediate response to the skin with original product lines consisting of active ingredients of the highest quality in terms of purity, selection and penetration capacity. CosGenetics involves the use of micro-encapsulated bio-active substances in high concentrations which are able to reach all layers of the dermis.

The Em'age system is the most advanced method that cosmetics can offer, treatment and care to the epidermis of the face, neck and neckline through an innovative systems that release active ingredients and highly performing functional elements.

Encapsulated liposomes, growth factors, biomimetic peptides and hyaluronic acid are the main functional elements of the Em'age system formulas. They are directly released into the target cells which immediately become reactivated. The result is **a completely regenerated, relaxed, toned and surprisingly younger dermis**.

Get in touch with the Future to experience a

Wonderful Present

The LINE

The synergy between science, technology and nature

The vanguard of an effective release that accelerates regeneration. **Em'age** line is the result of the continuous research of Philip Martin's laboratories.

Skin aging is now counteracted with encapsulated liposomes, growth factors, biomimetic peptides and hyaluronic acid. The target cells are reached by an innovative cosmetic system that reactivates and regenerates the dermis.

The future never gets old. It renews itself.

EM'AGE FLUID

Anti-Aging Face Vial

Professional Use

The immediate facelift. The filling effect that reduces the signs of aging. The face vial is a skin regeneration accelerator that stimulates the cell cycle and effectively counteracts the signs of aging. Applied to the skin of the face, neck and neckline by a massage or in combination with TM32-S technology, the vial has a rich content of protein active ingredients, growth factors, hyaluronic acid and primary functional substances.

The treatment surprises with immediate and effective results.

EM'AGE SERUM

Anti-Aging Face Serum

The research, the purpose, the release.

The efficacy of the protein active ingredients and hyaluronic acid, developed by scientific research and encapsulated are released in the target cells. The face serum, with its intense and effective anti-aging action, guarantees the rebirth of cellular dynamism. It minimises muscle contractions which causes the expression of lines (the botox-like effect).

The skin defies the future and loves its beauty.

EM'AGE CREAM

Anti-Aging Face Cream

Objective, active, synergistic. The combination of growth factors and the principles contained in the revolutionary cream, plump, revitalise and give a lifting effect to the skin. Thanks to the effective release of the active ingredients on the target cells the skin regains tone, elasticity and hydration.

The newfound youth of the skin.

EM'AGE EYES & LIP

Eyes and Lips Emulsion

The relaxed and luminous look. The revitalised and plumped lips contour.

The cells regenerate and resume their proper function (activity) thanks to a mix of functional substances and active ingredients that looks to the future. The hibiscus complex, the sphere low molecular weight of hyaluronic acid and the active proteins, perform in synergy to smooth out the eyes and lips wrinkles.

The advantages of EM'AGE

A leap in time, into a future that never gets old

The immediate effect of a treatment that begins in the beauty salon and ends at home. Skin care becomes a unique and professional path: professional knowledge and skilled hands come together to regenerate the dermis and go back in time.

The treatment in the beauty salon, with immediate and visible results, continues with the home skin care that allows a daily regeneration. The morning and evening skin care routine becomes a leap in time, into a future that never gets old.
